

Have you used DNA to search for information or family members?

Have you been found by someone who has used DNA?

If you have an adoption or out-of-home care connection in Victoria, we would love to hear about your experiences with Direct-to-Consumer DNA testing.

We invite you to complete the survey by following the following link
<https://go.unimelb.edu.au/99j8>

A paper copy of the survey is also available.

This survey has been designed by the University of Melbourne research project team with input from those with lived experience.

For further information or a paper copy of the survey please contact
Dr Jeanette (Jenny) Conrick
Tel: +61 3 9035 9938 Email: jeanette.conrick@unimelb.edu.au

The project: *The use and impacts of direct-to-consumer genetic testing and data platforms for family tracing after adoption or out-of-home care* has been funded by the Melbourne Social Equity Institute.

The project's community partners are VANISH, ARMS, and Open Place.
